

## Charges not subject to approval of the Mönchengladbach airfield

The masculine form is used in this Code of Charges to facilitate the flow of reading. However, this refers to all genders and does not represent any preference for a particular gender. All other genders are equally addressed and included.

For flight-related inquiries, please contact our traffic management (VKL). You can reach us by e-mail at [vk1@mgl.de](mailto:vk1@mgl.de) or by telephone on +49 2161 6898-10.

### Charges not subject to approval

#### General Aviation Handling

All fees stated in this fee schedule are net. In addition, the applicable value added tax will be charged unless an exemption under the Value Added Tax Act applies.

#### *Explanation*

Mönchengladbach Airport (MGL) provides the following free standard services for handling on the main apron:

#### a) Standard service (free of charge)

- Crew assistance
- Use of the crew briefing and rest room, subject to availability
- Use of the crew lounge including WLAN
- Interface coordination with air traffic control and the authorities

Alternatively, you can book our Premium package. Please note the respective booking deadlines\*. Handling takes place exclusively via the main apron (parking positions A1 to A6) and the terminal building.

For booking inquiries, please contact the traffic management (VKL).

Provision of hot water (per liter)	9,00 €
Coordination/Organization Catering	55,00 €
Newspapers on request	On request

We reserve the right to charge for services that have already been provided and can no longer be canceled, which have arisen within the scope of an order, even if these are not used. This includes, in particular, costs incurred by the airport vis-à-vis third parties.

### Service infrastructure fee

*Explanation*

The service infrastructure at Mönchengladbach Airport (MGL) is continuously improved and maintained at a high level in order to guarantee an appropriate level of service. To cover these costs, an infrastructure charge is levied on external users of the airport, which is graduated according to the maximum take-off mass (MTOM) of the aircraft. For homebased aircraft, this fee is already included in the parking or rental contract. It is the owner's responsibility to check this. In commercial air traffic with passenger transportation, an additional passenger-dependent service infrastructure charge must be paid, which is based on the number of passengers on board the aircraft at the time of take-off.

MTOM	Remuneration
up to 2,000 kg	3,00 €
2,001 - 4,000 kg	14,00 €
4,001 - 10,000 kg	42,00 €
from 10,001 kg	80,00 €

Passenger-dependent service infrastructure charge on take-off	Remuneration
Schengen per pax	5,50 €
Non-Schengen per pax	6,50 €

### Freight handling

*Explanation*

The loading and unloading of freight onto an aircraft is subject to a charge and is calculated based on the specific weight of the freight. The order for this must be received by traffic management at least one hour before the estimated time of arrival (ETA) or the evening before. If a forklift truck is required for the loading and unloading process, this will be charged additionally.

### Remuneration

Freight handling per kg	1,20 €
-------------------------	--------

### Aircraft towing procedure

*Explanation*

We offer towing of your aircraft with landing gear (except helicopters on skids) to any location within the enclosed airfield area. This service is

is subject to a charge and is calculated per way. During the towing process, your aircraft is insured by us against damage.

#### Remuneration

MTOM	Remuneration
up to 2,000 kg	20,00 €
2,001 - 5,700 kg	45,00 €
5,701 - 14,000 kg	80,00 €
from 14,001 kg	140,00 €

A fee of € 25.00 is charged for stabling and unstabling without flight movement raised.

#### Operating services and ground equipment including operation

##### Explanation

The following ground equipment and the trained operating personnel can be used for a fee. The charges apply per time unit or part thereof.

#### Remuneration

Device	Unit	Remuneration
Ground Power Unit (GPU) Engine Start	pcs.	33,10 €
Ground Power Unit (GPU) operation	0.5 hours each	50,00 €
Forklift incl. driver	0.5 hours each	96,60 €
Forklift excl. driver	0.5 hours each	60,00 €

Operating services	Unit	Remuneration
Electric jump start	pcs.	40,00 €
Battery charging	Per process	12,00 €
Application of oil binding agent (disposal excluded)	Per container	27,60 €

#### Washing area

##### Explanation

You can wash your aircraft yourself at the wash bay. A fee is charged for use and the fee is based on the total take-off mass (MTOM) of your aircraft. The fee includes fresh water and waste water, but not cleaning utensils.

### Remuneration

MTOM	Remuneration
up to 2,000 kg	30,00 €
2,001 - 5,700 kg	40,00 €
5,701 - 9,000 kg	50,00 €
over 9,001 kg per 1,000 kg or part thereof	10,00 €

### Engine test stand according to BlmschG

#### Explanation

You can test combustion engines and power units on our engine test stand, which is approved in accordance with the BlmschG. Use must be agreed in advance with our traffic management. During use, the engine test stand must be secured with the existing folding signs, flashing lights and additionally with pylons. If the test stand is not properly secured during use, an increased usage fee will be charged.

#### Charges

Per operation (max. 1 hour)	120,00 €
In addition, in the event of inadequate or insufficient hedging	100,00 €

### Salvage

#### Explanation

Aircraft that have an accident on the airfield premises or in the immediate vicinity can be recovered by us. This service is subject to a fee and requires the conclusion of a salvage contract including an exclusion of liability. The amount of the fee depends on the effort and complexity of the recovery. In any case, you are obliged to clear the operating areas of damaged aircraft immediately without causing delay or damage.

#### Remuneration

Per process	At cost
-------------	---------

### Subordination of aircraft

#### Explanation

You have the option of parking your aircraft in one of our hangars for a fee. There are two options available to you:

1. Permanent rental contract:

You can opt for a permanent rental contract with a contractually defined entitlement to parking in one of our halls. This contract is linked to the license plate number and holder and is not transferable. If you choose this option, please contact the airport administration to find out the exact terms of the contract.

2. Daily insinuation:

Alternatively, you can also store your aircraft without a contract on the basis of daily storage. The decision on parking is made on a daily basis and depends on the operational circumstances. If storage is not possible, the regular parking fees will be charged for the day. Please note that in this case you will not be notified separately and we cannot guarantee a fixed parking space.

Stabling and retrieval of the aircraft is carried out exclusively by our operations service. The costs for this are included in the parking fee, provided that the process is related to a flight movement.

Only the original German version is legally binding
